

DENTAL IMPLANT COMPLICATIONS: PROVIDING TREATMENTS THAT FIT YOUR PRACTICE

In Association with Dr. James Papp

Thursday, October 3, 2013

Program description

This program brings together clinicians in dental implant therapy to discuss common complications encountered in the dental practice. Dental implant therapy is becoming the preferred treatment option for partially and fully edentulous patients. As a result, dental clinicians are faced with treating surgical and restorative complications that arise from dental implant treatment. Complications can occur for a multitude of reasons, including improper treatment planning or site augmentation, sinus membrane tears, soft tissue mismanagement, implant malpositioning, and peri-implantitis. If you are a clinician looking to identify ways to help diagnose, treat, and avoid dental implant complications in your practice, this is a unique and beneficial program.

Topics discussed will help clinicians identify and address implant complications, understand the reasons they occur, determine treatment solutions, and how to avoid them through prevention methodologies such as proper planning, patient selection, and timely treatment.

Learning objectives

- Understand the effects of improper treatment planning
- Recognize how to prevent and treat of peri-implantitis
- Review malpositioned implant prosthetic solutions
- Understand implant esthetics
- Identify risk factors and how to avoid potential implant complications in patients with systemic disorders

Speaker Dr. Mark D. Zahn

Date Thursday, October 3, 2013

Time 5:30 pm - 6:00 pm *Registration*
6:00 pm - 8:00 pm *Program*
Food will be provided

Location Watermark Country Club
5500 Cascade Road Southeast

Speaker

Dr. Mark Zahn received his bachelor's degree from Calvin College in 1983, he went on to earn his dental degree from the University of Michigan Dental School in 1987. In 1990, he obtained a dual master's degree in Periodontics and Restorative Dentistry from the Horace H. Rackham School of Graduate Studies at the University of Michigan.

A lifelong resident of Ann Arbor, Dr. Zahn has been in private practice since 1990. He is a member of numerous professional organizations, including the American Dental Association, American Academy of Periodontology, Michigan Dental Association, Michigan Periodontal Alumni, Midwest Periodontal Society, Omicron Kappa Upsilon Honorary Dental Society and the R.W. Bunting Periodontal Study Club. He is also committed to the education of future dentists as a member of the Dean's Faculty and Adjunct Clinical Assistant Professor with the University of Michigan School of Dentistry.
